Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Is the Bible Scientifically Correct? All through the Bible, there are frequent statements involving a number of the sciences. If these statements are true according to modern science, it proves that the Bible is not only scientifically correct, but that it repeatedly anticipates modern science by 2,000 to 3,500 years. 1. The Bible is Archeologically and Historically Correct. History lies at the root of all science (Carlyle). The historical accuracy of the Bible has been confirmed in a multitude of instances whenever any reliable profane records have been found. This has been true, even in many instances which were formerly, for lack of information, regarded as difficult or suspicious (W. J. Beecher). The almost universal inaccuracy and unreliability of the Greek and Arab historians with reference to the kings of Egypt, Assyria, and Babylonia is in glaring contrast with the exactness and trustworthiness of the Hebrew Bible (R. D. Wilson). Even as far back as Genesis 14, this accuracy has been confirmed. The names of kings with whom Abraham fought have been found among the inscriptions. In its lists of the names of the kings of Egypt, Babylon, Persia, Damascus, Tyre, Moab, Greece, and Rome, the Bible has proved to be correct in time, order, and orthography. If the Old Testament writers were so accurate in spelling the names even of heathen kings, they logically should be trusted in other respects. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work.
