One who wants to get joy of book reading especially in very less time can go for it. About The Book George Berkeley, the metaphysician, was born on March 12, 1685, near Thomastown, Kilkenny, the son of a collector of revenue. He entered Trinity College, Dublin, at the age of fifteen, and was admitted Fellow in 1707. In that year he published two mathematical essays; two years later, his Theory of Vision, and in 1710 his Principles of Human Knowledge. In 1713, in London, where he had published further philosophical papers, he formed the acquaintance of Steele, Swift, and Pope. After travels in Europe he became chaplain to the Lord-Lieutenant of Ireland in 1721, and a few years after emigrated to Newport, Rhode Island, with a view to the establishment of a college in Bermuda for the education of Indians. This scheme fell through, because of the failure of the promised government support. Berkeley returned to London, and in 1734, by desire of Queen Caroline, was consecrated Bishop of Cloyne, in Ireland. Here he lived until 1752, but spent his last months in retirement at Oxford, where he died on January 14, 1753. Berkeleys Principles of Human Knowledge is one of the most eminent of that sequence of metaphysical systems which, beginning with Descartes, constitutes what is known as modern philosophy.
