Protecting Earth's Surface (Paperback)

By Research Fellow at the School of Public Policy Paula Smith, Natalie Hyde

Crabtree Publishing Co,US, United States, 2016. Paperback. Book Condition: New. 198 x 196 mm. Language: English . Brand New Book. Earth's surface is constantly being changed by heat, water, ice, salt, plants, and animals. Sometimes the changes are destructive to human activities such as farming and the building of structures. This interesting title shows the different ways people try to stop or reduce this change in the land. Examples feature such structures as dykes to hold back water and windbreaks, and adding shrubs, grass, and trees to an area of land to prevent erosion.

This book is definitely not simple to begin on studying but quite fun to see. I actually have read and that i am sure that i will gonna read through yet again once again in the foreseeable future. It is extremely difficult to leave it before concluding, once you begin to read the book.
